

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

GENERAL INDEX	601
PROGRESS OF NEW SOUTH WALES, 1860-1891—APPENDIX.	

PREFACE.

THE eight parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some few cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain statistics only, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures contained in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

NOTE.—In many instances the amounts lent upon mortgage by the banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deed. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "conveyances" are necessarily incomplete. In some cases a similar omission occurs in the stock mortgages, but not to the same extent as in those under the head of Real Property.

NOTE.—The returns from which this table is compiled were obtained from clergymen and other church authorities. The figures for 1886 denote the number usually attending principal service, not the average attendance, for this reason the figures for the year named cannot be used for purposes of comparison with those of the other years given above. Sunday school children are not included; for these figures see table 43.

* The figures for 1890 and previous years have been recast since last publication, in accordance with the returns of the Wesleyan Conference.

* In addition to this area, which represents the land alienated in fee simple under various forms of sale, there were 23,001 acres granted for public and other purposes since the foundation of the Colony. The total amount exceeds the figures given in the preceding table by 17,593 acres, and the excess is most likely distributed over several counties. The area alienated and unalienated in each county, as shown in the above table, must only be regarded as approximate; it is expected that a reliable table will be available in time for the next issue of the Register.

* The City of Sydney was first incorporated in 1842, and the mayoralty continued to the end of 1853; the Corporation was then dissolved, and the Government took over the Municipal functions and appointed three "City Commissioners," who administered the affairs till the end of the year 1857, when the old régime was re-established.

** For Municipal purposes, the annual value of unimproved land is taken at 5 per cent. of the capital value shown in this column.

† The amounts shown in this column represent the total value of all ratable property in the Municipalities, including unimproved lands, buildings, and cultivated lands.

‡ The Municipalities of Canterbury, and Smithfield and Fairfield, neglected to furnish returns for 1891 in time for insertion in the Register. The figures relating to Capital Value, &c., are those of the preceding year. In a subsequent table, showing Receipts and Disbursements for 1891 of these Municipalities, the returns have been obtained from the Government Gazette.
